Each Assembly District in the State will be entitled to two delegates in said Convention.

In view of the importance of the approaching Presidential campaign, and of the necessity of a thorough or ganization, the Committee would urge upon the friends nothing, and then nothing can be said against of the cause throughout the State the propriety of taking him ! immediate measures to secure a full representation i

The Committee would respectfully suggest that the several Assembly District Conventions for the appointment of delegates to the State Couvention, be held at 9 o'clock P. M., on Saturday, the 24th day of May next.

Running in Debt.

THE city, having already loaned its credit to Railroad Companies for nearly a Million and a Half Dollars, and the Common Council having passed Ordinances to loan \$200,000 more-\$150,000 to the Milwaukee & Beloit, and \$50,-000 to the Fox River Valley Raifroad Compaby-we feel it our duty, as a public journalist. to ask, where is this matter of running the city in debt to end? There was a necessity as well as propriety in aiding the Milwaukee & Mississippi and the La Crosse Roads, at the start, and the Milwankee & Beloit Road is of more importance, just now, than any other Road, and if we could stop with the \$200,000 now proposed, we would not say a word. But when this is granted, the Watertown Road will want sidressed... S. M. BOOTH, Milwankee, \$200,000, the Air Line Road to Fond du Lac. \$200,000, the Wisconsin & Minnesota Road, \$200,000, and how many more, we know not.

We may as well make up our minds now, that some of the Bonds afready issued the city will repeal of the Missouri Compromise, to the policy of the to run to Portage City, in order, if possible, to present "dininistration, to the extension of Slavery in the depreciate the value of both, and reader them ing the Watertown Road to run to Columbus, when it ought to lend all its energies to reach Physhurgh Convention of the 22d of February, 1855, to Madison, and every dollar spent on that line is so much thrown away. It was a liberal construction which induced the city to give \$200,-000 to the Horicon Road, and soon we are to be asked to loau \$200,000 to a Road starting from Beaver Dam. The result will be, unless we soon awake to a sense of our condition, that the Common Council will be owned by the Railroad Companies, and the election controlled by them entirely. The property of the city will be mortgaged for over \$2,000,000, Railroad and City Bonds will be depreciated-the interest on which must be paid-and if the Companies fail to pay, the city rulet, and if it cannot raise the money, the property of our citizens must be sold to pay it. Pay-day, sooner or later, will come. And we must shut down the gate soon, or be hopelessly swamped in debt!

> LAKE ZURICH BANKER.—We have received five numbers of this original sheet, published by Seth Paine, at Lake Zurich. Itl. Mr. Paine, it will be remembered, was some two years ago tried for insanity, and acquitted. Somebody wanted to get control of his property. It is the most purely original and unique paper we have seen. Its editor does not hesitate to speak as he thinks. We copy two extracts as

"There is no animal, not even the woodchuck, who is more intent on the dirt and in his own hole, than the people of Lake County, Illinois. And yet among all our acquaintances elsewhere, we know of none who are more stupidly honest, they mean well, but they lack knowl edge. Half of them are committing suicide, which should control the election, to meet at the same time by eating and drinking, and to-morrow will

Charles Kennicoit, sent him an evergreen from his nursery, on which he remarks:

THE Berlin Courant is mistaken. We said all the Know Nothing Editors would oppose the Mass Convention, but we neither said, intimuted nor believed that all who oppose the Mass Convention are Know Nothings.

We assure the Courant that we have passed the point when abuse from the Republican press can specially affect us. Those presses have shown their hand-have shown what they wo'd do if they had they had the power. They have shown that there is nothing which they have charged against the old Hunker press, in the hood, at which they will stop to accomplish our past, on a charge of having murdered the illedestruction. They have done their worst !-They seem to think it is only necessary to kill us off to bring about the millennium. A few weeks more will open some people's eyes.

The enormous price of rents for dwellings this spring, should lead our property holders to ake immediate measures to build houses this :eason. If the present high prices of rents wontinue, our mechanics and laboring men will have to leave the city, for they cannot sarn enough to pay rent. One thousand dwell age ought to be put up at once, and would command ready tenunts at fair prices. Our artizans and laboring men should stop paying rent as soon as possible. Better go out into the suburb ; a mile or two from the center of the city, by a good sized lot, put up a small, cheap house, raise their own vegetables, and breathe the fresh air; and save their rent to build a be ter house when they have accumulated a suffic ent sum. Don't always live in a rented house, and be dependent on landlords.

Thousands too, who come here to do busir ess and make their homes with us, will pass us by, and go elsewhere, unless we can furnish them houses to live in at a reasonable price. Ve can see no greater drawback on our prospe; ity than extravagant rents, and no greater curse to the city than a set of Shylock landlords, v ho want to equeeze the last drop of blood out of the mechanics and producing classes, and who coin wealth out of the necessities of their neighbora.

Mr. Clay (springing to his feet greatly excited)-I defy the Senator's malice as much as I contemn his baseness. No man shall assail my rights or those of my constituents and shirk his responsibility by skulking behind the plea of non-combatancy. If he were animated by those heroic feelings which he professes, he would not come upon this floor, and under the protection of its rules, seek immunity for his insolence. I know he is pleased by this attention. There are those of his class, who, like the London Attorney, Mark Meddle, in the play, are ambitious of a kick. [Sensation]—Mr. Clay concluded by remarking that he had nothing more to say to that Senator, having twice declined his acquaintance, and he asked pardon of the Senate for consuming so much time about a Senstor who soils the carpet upon which he treads.

Mr. Halo replied that he had never sought an intruduction to Mr. Clay but once, and that was on professional business for the benefit of a citizen of Alabama.

FROM OUR GREEN BAY CORRESPONDENT.

FORT HOWARD, May I, 1856.

Editor Free Democrat-The rapid wheels of time have ushered in the merry month of May, with a heavy rain storm from the Northeast-yet the past two or three weeks have been unusually mild and pleasant; so much so that many of the gardens have been plowed and planted, and many farmers have completed sowing their spring crops.

The new steamer "Fannie Fisk," plying between here and Menomonee River, has made several successful trips, and another, building py Messrs. Ayers & Tremain, will soon be ready to follow in her wake. The commercial business of the Bay and River will greatly exceed that of former years. We have had three arrivals from Mitwaukee, and are hourly expecting a steamer from Buffalo and Colling-

Buildings are rapidly going up on both sides of the River, to accommodate the steady increase of population, wharfs are being erected to meet the increasing demands of commerce, and every available screw in business affairs is

Indirect information has been received from the War Department, that the Fort Howard Reservation will be sold the ensuing summer, which will greatly facilitate the growth of our young city. It has all been surveyed into forty acre lots, with the exception of that portion lying contiguous to the River, which has been run out into village lots, streets, &c., sufficiently far back to make room for a city of the first magnitude. The lots below the Fort are high and dry, and command a fine view of the clear waters of the Bay and opposite side of the Riv-

er. Claims, ancient and modern, are scattered over various portions of it, and, I think, unless the Department adjust or establish the authorticity of said claims prior to the sale, a door of litigation will be opened for legal expounders, not easily closed.

From Kattons. A Lawrence correspondent of the St. Louis Democrat, says Col. Sumner encamped opposite that place on the 25th, with 120 Dragoons, and on the 27th addressed a letter to Robinson stating that the attack on Jones will produce great excitement throughout the Territory and on the Missouri frontiers, and urging upon the people of Kansas the importance of fortifying and bringing the assessin to justice. Also that the affair has been reported at Washington, and

Robinson replied that the attempted assessination of Jones was universally condemned by the citizens of L., and if the guilty person could be found he should be given up. It has been the policy of the people of Lawrence, to yield prompt obedience to the laws of officers of the federal Government, and as Jones was acting by the authorityof that Government, the day o the assault, the person guilty of the deed, was an enemy to the citizens of Lawrence. Sumner has returned to Fort Leavenworth. The Kickspo Rangers are encamped opposite Lawrence, and the people of that place were prepared to give them a warm reception -They have cannon in readiness.

The St. Louis Republic's correspondent, says that the court in replying to Whitfield's note. stating that he could not attend the ivestigation at Lawrence, said they would go to some place where he could introduce witnesses.

At a meeting held at Westport on the 26th ult., resolutions were passed, denying the assertions made by the Herald of Freedom, that the military companies were drilling in that place the day Jones intended to make an arrest at Lawrence, thereby proving that the whole affair was premeditated and planned.

Another Prod lential election is approaching. Can we rely on any of the great parties of our country to donor work in that election? On konney or them. None of them is so much as entisslavery; and even that one is united aware the introduction of slavery into the Tentionies, but endores its constitutionality in all the shave States.* It lets alone the whole slave trade, not only that between the States, but the constitutionality in all the shave States.* It lets alone the whole slave trade, not only that between the States, but the constitutionality in all the shave states also of Congress. It lets alone the whole slave trade, not only that between the States, but the constructions of Congress. It lets alone shavery in the District of Controllin. It even be shades the Facilities States, and does not deep that all the Tecritories, also, one the constitutional hard more many and the shave later that share a fee State. Nevertheless, it would alter the shavelolder a offer presid over all its prefines and through all its towns after his bleeding and broken hearted figilities.

teacted nightys. We have said all this to prove that we have by clight to rely on the Republican party to do our work a tre coming election. Enough to this end is the fact han the shevery which we are trying to abolish this party preach its wing over, and doubes our right to abolish.—
nough to this end is it that whilst we hold slavery to be a recominent since and a collection and truth to Compre-eminent piracy and a naked onthaw, and that the Con-stitution not only does not, but could not legalize it, this party, on the contrary, regards one endescor to liberate the millions of slaves as a war upon the constitution and a million of legalize.

pacty, on the contrary, regards one endeavor to liberate the millions of shaves as a war upon the constitution and a violation of law.

Let it not be supposed that we undervalue the character of fire members of the Reguldican party. Not a law of them are our personal friends—stemed and beloved by as. A considerable portion of them, we trust, are Abellionists at heart, and anberille to our principles—But the more excellent the character of the members of this party, the mare injurious the disks policy which they have subtred to be stemped upon the party. That such men should make such concessions to always, is han intable indeed. Also, for Freedom, when even her own professed friends can consent to yield so much to slavery in exchance for so little for treadom!

It it said that policy dictates the adoption of a platform on which all can send who are opposed to the extension of slavery, be the degree or character of the requalition what it may? And is it argued and expected that the Republican party, though starting on the law ground of this policy, will rise into an Abolitio aparty? We answer the such a policy will from its own inevitable influence keep down and drag down, the party that adopts it—Hence, about the Republican party get the rainon government it will endeavor to satisfy the nation by restoring the Missouri Compression, and equipment a vary other point. In the present possessions and creaties of

comment it will endeavor to satisfy the nation by restoring the Missouri Gomeronise, and acquiescing, at every other point. In the present possessions and practices of the ear. It would feel itself bound, by the implications of its platform, not to disturbatione possessions and practices. Thousands in the Republican party mean that it shad work the averthrow of slavery, and doubtless many of the Republican party may prove the confirmation rather than the subversion of slavery, the most authoritative and effective endorsement of slavery, because endorsed the ratiosal avery men.

it is manifest, then, that we, who reluse all concessions to slavery, and all terms with whotever piracy, must lay our account with doing our own work in this election. our accessed with doing our own work in this election.— We must monitate our candidates and vote for them, and do what we can to persuade others to vote for them. Why should we despair of electing them? Mighty will be the appeal of our principles to all who love justice and line-ry for all. In their bosons the motto of the Republican party. "Shavery sections—liberty national," can awake a no earliestens, and call up no response.—The words that tell one tratail, glorious, heavenly principle," SLAYERY FOR NORE—LIBERTY FOR ALL "those ciple, " SLAVERY FOR NONE—LIBERTY FOR ALL ciple, "SLAVEN FOR NORE—LIBEATY FOR ALL"—these save the words that have power to anlock their hearts and enlist their sympathies, and fire their zeal. Thousands may come to us who would never consent to go to them. Thousands may desert their standard to gather around ours. Why, indeed, should not the whole Republican party do this? The compositively little good for which it goes, we go for also. And should they refrain from coming to us, because, in addition to this, we go for other and immessurably greater good? Think us not extravestal when we say that it is for from improbable that the Republican party will come to our standard. Anoth the Republican party will come to our standard. Anoth or seem outrage at the bunds of the Slave Power—such er geent outrage at the hunds of the Slave Power—such as the shugher of a hundred men in Kansas—and the Swill quickly be but two political preties in the intion—one party to kill dravery, and another to save it. A party to bolish shaver and a party to defend it will be the only political privice for which we shall then have room—or for which we shall then have the test demand,—Th' was virtually admitted by Abiah Mann when, amid the best appears of the Pinsburg Convention, he said; "If the flovernment proceed to the shadding of a sins gle stop of blood, for the purpose of having the inflamoulows of the Royder Ruillan Legislature enforced, I give it to you as my deliberate conviction, and on my responsibility as a cirizen, that it will be the end of human shavery in this land."

In such an event, what reem would there be for the Republicar party, with its distinct admission that "the slaveholding interest, in the Staces where it exists, is entitled, under the Consitution, like all other local interests, to incumity from the interferences of the General Government "I In such an event, what room would there he for the Republican party, a party "disclaining any intentions to interfere with slavery in the States where it exists "? I In such an event, what room would there be for the Republican party, whose Gouvention referred to was presided ever by a slaveholder, representing a showholding constituency, and bringing with lim, as he binned stated, a "Southern patform," designed as in binned stated, to restore the Missouri Compromise as "the security of the slave institution"; 4 a party As in Finned stated, to restore the Missouri Compromise

We must not however, concern ourselves inordinately with the question, whether there will be few or many to come to us. We should fluid ufficient encourablement to go forward in the assummer that God is with us. In claiming, as we do, the immediate and anconditional liberation of every slave, and in denying, as we do, the possibility of law for shorry, we cannot doubt that we have the Divine approbation and the Divine blessing.
